# HDFC Life Q2 profit rises 19% to ₹329 crore

MITHUN DASGUPTA Kolkata, October 21

**HDFC LIFE INSURANCE** on Friday reported a 19.25% year-on-year growth in its net profit to ₹329.02 crore for the second quarter this fiscal on a consolidated basis, aided by an over 14% YoY increase in net premium income. The net profit had stood at ₹275.90 crore in the year-ago period.

Net premium income rose 14.56% YoY to ₹13,137.89 crore during the July-September period, compared with ₹11,468.03 crore in the same period last year, according to a stock exchange filing.

First year premium during the period under review grew

16.61% to ₹2423.13 crore, against ₹2,077.96 crore for the year-ago period. Renewal premium during the period increased 37.19% ₹6,906.63 crore.

During the first half of this fiscal (H1FY23), value of new business grew 16% to ₹1,258 crore on a pre-merger basis, from ₹1,086 crore in the corresponding period last year, HDFC Life said in a release. HDFC Life merged subsidiary Exide Life with itself on October 14, pursuant to the receipt of the final approval from the Irdai. "On the business front, we

continued to maintain a steady growth trajectory, growing by 11% in terms of

total APE (annualized premium equivalent) in H1FY23 on a pre-merger basis i.e. excluding Exide Life. We have grown in line with the industry and faster than listed peers this quarter, which also led to market share improvement from 14.6% in Q1 to 15.0% in Q2 on a pre-merger basis," said Vibha Padalkar, MD & CEO.

(NBM) for the quarter was 27.6%, up from 26.4% in H1FY22, on a pre-merger basis. "There has been margin expansion for both the existing business i.e. pre-merger and the acquired Exide Life business. We are close to achieving our aspiration of maintaining FY22 margin neutrality for the combined entity, delivered 26.2% NBM, compared to 26.4% in H1FY22. The value of new business grew 16% on a pre-merger basis and was at ₹1,258 crore for H1," Padalkar said.

The company's board on Friday announced that it has elevated Suresh Badami, cur-New business margin rently executive director and chief distribution officer, to the role of deputy managing director.

HDFC Life Insurance's premerger embedded value as on September 30, 2022, stood at ₹33,015 crore, while the embedded value of the merged entity was at ₹36,016 crore.

# 'Back book in H1 generated 35% more profit'

HDFC Life Insurance has been able to retain most of the key employees, distributors and agents after the Exide Life merger. MD & CEO Vibha Padalkar tells FE's Mithun Dasgupta that the insurance company has already started working on rationalisation of branches as the merged entity won't probably need around 100-150 branches. Excerpts:

What were the factors that contributed to the growth in consolidated net profit in Q2? The main reason is that our back book has generated almost 35% more profit at ₹1,990 crore for H1FY23 (on a pre-merger basis). For the same period last year, the back book was ₹1,480 crore. Insurance companies make money from their back book only when policyholders pay their premium. More premium they pay, more profits are generated. Over the years, we have been slowly increasing our 13th month and 61st month persistency ratios. So, our back book has typically grown about 18-20%. This 35% growth is super-normal in a way.

The company announced completion of the Exide Life merger earlier this month after the final approval from regulator Irdai. How will this help the growth of the company?

Our market share has gone up from standalone 14.8% to 16.1%. That is the fairly significant one. Addition to our agency channel post the merger is 30% higher, and most of the metrics are on track. Solvency ratio continues to remain at 210%. Our embedded value has gone up by about 10% at around ₹36,000 crore as on September 30, 2022. We have been able to retain most of our key employees, distributors and agents. And, the significant market share gain that you see, hopefully we can build on that collectively.

Is there any plan on rationalisation of branches?

Yes, we have already started working on that. We have about 380 branches, Exide Life has about 200 branches. So, totally we have just short of 600 branches. Now, out of that, probably 100-150 branches we don't need. Not everything will come out of Exide Life branches, we will close HDFC Life branches or Exide Life branches depending on location and size of the branches,

and lease agreements.

The company has raised around ₹2,000 crore by allotting equity shares to HDFC on a preferential basis. Is it mainly for supporting business growth?

It is for growth capital and also partially for the Exide Life transaction, where we paid in cash.The cash (cash pay-out in the deal was ₹726 crore) in any way has gone out of our pocket To replenish that and as well as for some growth capital, we need the fund. Markets are facing a lot of volatility, it is good to have some capital so that we don't have to worry about as and when we see growth opportunities.

On Irdai's growth guidelines for insurers, you earlier said the company would continue to talk to the regulator. Any development on that?

They (Irdai) expect us to continue to focus on the regions that are allocated to us. They want us to go into the grassroots level for the growth targets that they have given us. But, right now it is not mandatory, it is more in terms of cajoling us to focus on the regions that we have been given in terms of business growth. They are also looking at how we can get into the bottom of the pyramid and get to the people who don't have any insurance. So, it is more a dialogue rather

So, there is no revision of the suggested growth targets... Nothing further as such. Yes, there are some discussions that are going on. They (Irdai) asked us to provide some data, which we keep providing.

**PRIVATE SECTOR LIFE** insurer SBI Life Insurance on Friday reported a 52.76% year-onyear growth in its net profit to ₹376.74 crore for the second quarter this fiscal, backed by an over 12% Y-o-Y increase in net

The insurer's net profit had stood at ₹246.62 crore for the second quarter last fiscal. Its net premium income rose 12.39% YoY to ₹16,477.26 crore during the July-September period, compared with ₹14,660.64 crore in the same period last year, according to a stock exchange filing.

First year premium during the period under review fell 3.54% to ₹3,481.91 crore, against ₹3,609.75 crore for the year-ago period, while renewal

premium during the period increased by 17.35% to ₹9123.95 crore ₹7775.13 crore.

"Establishing a clear focus on protection, SBI Life's protection new business premium stood at ₹1,598 crore for the period ended September 30, 2022, marking a growth of 32%. Protection individual new business premium registered a growth of 17% and stood at ₹434 crore for the period ended September 30, 2022. Individual new business premium stands at ₹8,461 crore with 31% growth over the corresponding period ended September 30, 2021, the insurer said in a release.

The company's solvency ratio continued to remain robust at 2.19 as on September 30, 2022, against the regulatory requirement of 1.50.
